About myself

Born on the island of Ibiza, Spain, I am passionate about technology, robotics in particular. Besides technology, I also enjoy sports, reading, and cooking. For me, working in this field is a dream I'm willing to work hard for.

Knowledge

Python	ROS2
C++	JAVA
Matlab	Swift
Javascript	RUST
PHP	MySQL

Frameworks

Laravel	API Rest
ASP.NET	Node.js

Soft-Skills

Teamwork	Interest
Leadership	Curiosity

Projects

My background covers a range of areas within robotics and intelligent systems — including visual computing, robot design, software development, and IoT integration. I've had the chance to apply this knowledge hands-on through internships where I worked on real engineering challenges, from motion control to sensor fusion. I don't just study technology; I build it.
